

How to Use SKYTAG

- 

Prepare Sky Tag & Fasten lock
- 

Insert the fasten lock
- 

Put the lock around the bottle neck
- 

Attach the Tag with lock tightly to the bottle, with seeing LED blinks to register as attached to a bottle.
- 

Cut the extra part of the lock
- 

A bottle with a Sky Tag
As soon as bottle is inclined, dispense data is transmitted.
- 

When bottle runs out, cut the lock to remove the Tag, it registers a new bottle change.
